Subject: Boat Safety Course

To all Lower Saranac Lake Association members;

We have been fortunate enough to schedule the New York State Boating Safety Course which is sponsored by the NY Dept. of Parks and Recreation Marine Division this coming summer 2009. Dave Perry, who lives on Upper Saranac Lake , has taught the certified NYS boating safety course for many years and has kindly offered to teach the course to our youth.

The course is for students age 10–17, scheduled for July 13 and July 14 from 9:00 am to 1:00 pm. After passing the test, they will be issued a certificate of completion, not a license per say, but would act as a license for them. The state will provide their books.

I would appreciate a preliminary head count now to determine class size which can be up to 18 students only.

Early spring I will contact you again to confirm participants and class materials will be ordered then.

Penny Curran
