

New York State Boating Safety Course sponsored by the NY Dept. of Parks and Recreation Marine Division.

Instructor Dave Perry has taught the certified NYS Boating Safety course for many years and has kindly offered to teach the course to our youth. After passing the test, they will be issued a certificate of completion, not a license per say, but would act as a license for them. The state will provide their books.

The course is for up to 18 students age 10–17.

Scheduled for July 13 and July 14, 2009 from 9:00 am to 1:00 pm.

Location is Ampersand Bay Boat Club. Meet in front of their office.

Please bring a chair if you can. Provide your own snacks.

After we have registered all youth attending, interested adults may take the same course for 10.00. Or observe only for free. Adults keep in mind that the course will be centered on the youth so they can be qualified to operate a boat on their own.

We are still looking for an easel, chalk or white board and possibly some card tables.
